

...the power of intelligent scanning

# LabelXpert Designer

## LABELXPRT DESIGNER

The LabelXpert Designer module allows you to customize the label formats that are included with the Warehouse Automation module as well as create new label formats. Customize labels for every purpose; item tags, shelf tags, bin tags, carton tags, and more. LabelXpert Designer supports both laser and thermal label printers. You can purchase the Warehouse Automation and LabelXpert Designer modules together or separately.

## CUSTOMIZABLE LABEL DESIGNS

While basic label formats are included with Warehouse Automation, the LabelXpert Designer module allows you to customize them to better match your way of doing business, plus create completely new label templates. LabelXpert Designer also helps you to comply with your customers who may have unique labeling requirements.

## PRINT BARCODES WITH OR WITHOUT THE WAREHOUSE AUTOMATION MODULE

If purchased without Warehouse Automation, the LabelXpert Designer module provides you with label printing capabilities from a single workstation, with the option to purchase licenses for additional printing workstations, if necessary. This is a simple, economical way to fulfill basic packaging or retail bar coding requirements of your customers.

When you purchase LabelXpert Designer along with the Warehouse Automation module, you can perform bar code label printing from all Sage MAS 500 workstations or Warehouse Automation handhelds at no additional charge.

## LEVERAGE THE POWER OF THERMAL PRINTING

Thermal label printers can print at speeds of up to 10" per second and can print any number of labels without wasted label stock. Thermal labels are available in a variety of sizes, configurations, and adhesives that can meet any environmental challenges or customer requirements. Because thermal printers use ribbon rather than toner cartridges, the barcodes cannot be blurred when touched and the handhelds are guaranteed a readable barcode.

### THE BENEFITS:

- Integrated Label Printing
- Print Labels As You Receive
- Use Wide Variety of Label Stock
- Print Error-Free Labels Everytime
- Use Standard Bar Code Labels or Design and Print Your Own

*"Scanco has helped us cut down on data entry errors and improve our overall efficiency."*
